

# JORDAN SLEEP & PATIENT TRANSFER RECLINERS

**JOR6-SRWOD13**  
COM YD. COMPLETE UNIT – 5.3  
COM YD. SEAT – 1  
COM YD. BACK – 1.8

**OTTOMAN LEVER**  
The Ottoman Lever is standard on Jordan Sleep Recliners. It extends and closes the built-in foot rest.

**BACK ADJUSTMENT LEVER**  
The Back Adjustment Lever is standard on Jordan Sleep Recliners. It creates an infinite number of back adjustments within the chair.

**URETHANE ARM**  
The full urethane arm provides enhanced durability and protection for the arms.

**COMBINATION UPHOLSTERY**  
Combination upholstery is an option on all Jordan Sleep Recliners.

**SWING AWAY TABLET**  
The tablet has the ability to slide up and fold over and rotates 180°. The break away design allows for the tablet to be pushed away from the patient quickly in case of an emergency.

**SWING AWAY TABLET**  
The swing away tablet was designed to be easily operated. The kidney shaped design is ideal for use as an eating surface, writing or work surface. Available in wood veneer, plastic laminate, and Palette finishes.

**PATIENT TRANSFER ARM**  
The Patient Transfer Arm is designed for safe and efficient transfer of patients from (or to) beds and wheelchairs.

**PATIENT TRANSFER ARM**  
The arm folds down below the height of the seat so it is out of the way for both patient and caregiver.

**Sleep Recliners**

W	33 1/4"	WIDTH
D	35"	DEPTH
H	45 1/2"	HEIGHT
SH	19 3/4"	SEAT HEIGHT FROM FLOOR

- Antimicrobial Finish
- Wood Arm With Urethane Cap
- Life Time Warranty
- GREENGUARD™ Certified
- Infinite Back Position Lock/Adjustment

JOR6-SRWOD13

JOR6-SRWOD13

The Jordan Sleep Recliners provide a comfortable and safe sleep position for patients and visitors, while also serving as a mobile and functional recliner for patient treatment, rest, and transfer.

Four positions, including the Lay Flat position, provide for a full ranges of uses:

- A - Back upright, seated with feet on the floor
- B - Back upright, ottoman footrest extended
- C - Back in recline (partially lowered) position, ottoman footrest extended or closed
- D - Lay Flat (back fully lowered) position, ottoman footrest extended

The back and ottoman have individual mechanisms to operate separately - with the back featuring an infinite lock range. The buttons for these mechanisms are located on the caregiver side, but are also accessible by the user.

**PATIENT TRANSFER RECLINER FEATURES:**

- Arm Folds Down & Out Of The Way
- Positive Safety Lock
- Field-Replaceable
- Field-Installable on Existing Recliners
- Available On All Arm Styles
- Life Time Warranty
- GREENGUARD™ Certified

JOR6-SRTWOD13

JOR6-SRTWOD13

The Patient Transfer Arm is an option that can be specified on all Jordan Recliners, and for any style of arm. Designed for safe and efficient transfer of patients from (or to) beds and wheelchairs, the arm folds down below the height of the seat so it is out of the way of both the patient and caregiver. The activation button is located on the caregiver's side of the arm, and the mechanism has a spring-loaded positive lock for safe, secure locking of the arm in the upright position. A heavy-duty steel hinge makes it durable, but the Patient Transfer Arm can be field replaced on the recliner - and can even be field installed on a Jordan Recliner that has a standard arm.
